c what does 0 mean stack overflow Aug 26
2022 the 0 is basically a null terminator
which is used in c to terminate the end of
string character in simple words its value
is null in characters basically gives the
compiler indication that this is the end
of the string character let me give you
example as we write printf hello world
hello world 0 here we can clearly see 0 is
acting as null tough printinting the
