More Vinydians coming to Earth!!!! Dear Reader, One week ago, I awakened in the body

of a plush toy on Earth. I am a scientist from the planet Vinydia...not a toy! Luckily, I met two young brothers who have helped me explore and have so far managed to keep me a secret. It hasn't been easy for them, since my enthusiasm led to a few close calls. Now the boys face the possibility of having some of my Vinydian friends join me on Earth in the bodies of other plush toys. This might complicate things. You see, I have a plan to improve the lives of everyone on my home planet. All I need are diamonds. Sounds complicated, I know, but my plan is fool proof. It involves stowaway air travel to Arkansas, camping, clandestine mining, and, of course, good food. Simple really! What could possibly go wrong? Yours truly, Doctor S. A board book featuring gorgeous Lovecraft-themed illustrations for every letter of the alphabet. Before the Internet, Wal-Mart, and the shopping mall, there was Montgomery Ward. The early history of the religious community at Glastonbury has been the subject of much speculation and imaginative writing, but there are few sources which genuinely further our knowledge of Glastonbury Abbey in the Anglo-Saxon period. This has resulted in a lack of serious historical research and hence the neglect of an important ecclesiastical establishment. This study brings

together the evidence of royal and episcopal grants of land and combines it with material from Domesday Book, to produce a survey of the landed endowment of Glastonbury Abbey before 1066, and an analysis of the history of its Anglo-Saxon estates. Although there is too little data to formulate a complete account of the Abbey's early landholdings, the surviving evidence, collected together here, outlines a history for each place named in connection with the pre-Conquest religious house; in addition, each case helps to establish an overall framework for the life-cycle of the Anglo-Saxon estate, building on our understanding of actual conditions of tenure and of the various fortunes ecclesiastical land might experience. LESLEY ABRAMS is Lecturer in History, Brasenose College, and Fellow of Balliol College, Oxford University. Dear washer/dryer manufacturers, Among the many cautionary statements placed on your products, I believe you should add an additional one to prevent unintentional consequences of otherworldly proportions. As fantastic as that may sound, this very letter is in fact one of many unintentional consequences of your appliances having been used to wash plush toys. I am unfortunately not able to elaborate any further on the details, but I plead with you to consider adding the following statement on all your manufactured goods: Caution: Plush toys should not be washed using this device. Sincerely yours, Doctor S. Have you ever washed plush toys using your washer and dryer? If so, did you notice strange,

unexplainable things happening around your house soon afterward? Perhaps all the chocolate and/or baked goods vanished from your household? Perhaps you got home from work to find everything a mess? Perhaps your alarm clock ring tone changed by itself? After having washed your plush toys, did you ever get the feeling they were staring back at you? If any of this sounds familiar, then Sam and Nathan's adventures with their plush toy, Doctor S, may shed light on what may be happening at your house. Warning: You may want to hide your diamonds and your chocolate.
