**LE/AD
PO BOX 7607
LAKELAND FL 33807
(863) 221-5323
www.le-ad.org**

The Problem

Lakes are one of our most precious resources, which are unfortunately filling in from erosion and are being degraded from nutrients washed into them from our homes and businesses.

The Solution

Look inside for 14 simples solutions that will save our lakes for future generations.

Lakes provide numerous benefits including recreation, fisheries, navigation, economic benefits, wildlife habitat, water storage and more. Our beautiful lakes also enhance property values, contribute to tourism and provide jobs for citizens.

Lakes Education/Action Drive (LE/AD) is a non-profit corporation organized for the purpose of educating the citizens of Polk County about our lakes, and helping them to realize the tremendous benefits our lakes provide.

Fact

Stormwater runoff is the number one source of pollution into our lakes. Look inside for more information on how to protect and preserve our lakes.

**Become a LE/ADer.
Fill out the membership application
and mail it today!**

We need our lakes, and they need you.
